

## **A message to our Medicare patients considering CT Angiography:**

Thank you for considering InteCardia for your CT Angiography. InteCardia is a division of Virginia Cardiovascular Specialists (VCS) and is located at the VCS Heart Center at Forest Medical Plaza. We are the only cardiology practice offering comprehensive heart and vascular services at one location, including our CT services.

InteCardia is the only CT lab in Virginia fully accredited by the Intersocietal Commission for the Accreditation of Computed Tomography Laboratories. VCS has several cardiologists specially trained in CT and on site to oversee CT Angiography procedures and interpret results.

As you know, President Obama recently signed into law the Patient Protection and Affordable Care Act. This legislation mandates that we inform you of other locations providing CT services. We hope you will choose to have your CT Angiography at InteCardia. However, CT scans are available at these other locations:

- Bon Secours Imaging Center at Reynolds Crossing
- Bon Secours Memorial Regional Medical Center
- Bon Secours St. Mary's Hospital
- HCA Chesterfield Imaging Center
- HCA CJW Medical Center
- HCA Henrico Doctors' Hospital
- HCA Independence Park Imaging
- VCU Medical Center (Stony Point, Ambulatory Care Center, and Main Hospital locations)

If you have any questions about this information, please ask one of our patient information coordinators when you schedule your procedure.

Thank you.

VCS Physicians and Staff
